THE HOUSING PROBLEM AND THE MUNICIPAL COUNCIL

(Copy of petition presented at the House of Assembly Friday afternoon)

To The Honourable The Speaker and Members of The House of Assembly.
This Petition Humbly Sheweth.

WHEREAS the condition of many of the houses in the city of St. John's and the overcrowding which has been occasioned by the lack of suitable houses have occupied the serious attention of the late Municipal Board and the present Council for the past six years.

AND WHEREAS the Charter was framed largely with the view of remedying the evil, but the failure of the Legislature to deal with that Bill postponed for four years the measures which had been devised.

AND WHEREAS the problem of State aid to housing has exercised the minds of Governments in all parts of the world, but up to the present time all schemes have proved to be more or less failures, and no substitute has yet been found to replace the individual effort and the inexorable laws of supply and demand which have kept the human race housed since the dawn of civilization. Any action which tends to abate the natural instinct of a man to provide a home for himself and his family, or which prevents the operation of economical laws in this respect is certain to do more harm than good.

AND WHEREAS the end to be desired in the Colony of Newfoundland is that each family should live in a detached house on freehold land of as large an extent as is possible, it being a well known fact that higher ideals of citizenship are developed when people live in houses which they own themselves. In St. John's the desire for the individual to own the house he lives in is very strongly in evidence and should be encouraged in every possible way. During the war very few dwelling houses were built; last year, however, one hundred permits for Dwelling Houses were issued and this year there have been already forty-nine.

AND WHEREAS the Council learns that Resolutions have been laid before your Honourable House for the purpose of assisting the Dominion Co-operative Building Association in its very laudable endeavour to provide houses for the working classes.

This assistance takes two forms: First, that a dividend of five per cent. on the capital invested shall be guaranteed, in other words that the Government of the Colony shall make up not only any deficit which may accrue in renting the houses built, but also a dividend of five per cent. Second, that all construction and building materials and machinery imported by the Company, which are not manufactured in the Colony shall be duty free.

"The Council begs to submit:

That every possible assistance which can reasonably be given to this company should be given, but that to give such assistance to this company alone, to the exclusion of the poor man who is struggling to build his own house, or to the Council, which is assisting people to secure houses, would not only be manifestly unfair, but would actually tend to prevent that increase in the supply of houses which is so greatly desired.

"To the man contemplating building his own house, it will at once be obvious that it would be cheaper for him to rent one of the houses to be built by the company than to build for himself, and he immediately will abandon his design. The Council will also be influenced by the same thought, and will see that it must cease to build houses for sale when it will be unable to do so as cheaply as the favoured company with its cheaper money and duty free materials.

"The Council therefore most strongly urges the Legislature to make the operation of the Bill general, and to afford to all builders of workingmen's houses, whether for themselves or for others, the same advantage of cheap money and duty free materials as is proposed to be granted to the Dominion Co-operative Building As-

BRAZIL'S NEW ENVOY TO UNITED STATES

Dr. Augusto Cochrane de Alencor, recently appointed Brazilian Ambassador at Washington.

Advocated Bible Readings in Schools

Rev. Canon Kuhring in Methodist Conference.

SACKVILLE, June 11.—The Methodist conference for N.B. and P.E.I. opened this morning, the president, Rev. H. E. Thomas, in the chair. The following officers were elected: Rev. D. R. Chown, Oak Hill, president; Rev. E. Styles, secretary; Rev. F. H. M. Holmes, journal secretary; Rev. G. S. Helps, statistical secretary. Several ladies were among the lay delegates.

Rev. Canon Kuhring, St. John, representing Bishop Richardson on the interdenominational religious education committee which have since ten years ago been striving to have Bible text book used in public schools, addressed the conference, urging continued co-operation of Methodists in the educational campaign to have the Bible read and memorized in public schools with a half hour daily devoted to it. Anglicans were more deeply impressed than ever with the necessity for this. Protestants should insist that the government grant their rights; that 200,000 people who demand this should not be overruled by the 145,000 who opposed.

Canon Kuhring received a vote of thanks. Rev. Dr. Steel supported him. Conference re-appointed the former committee to co-operate on Bible teaching: Rev. Thomas Marshall, W. G. Watson, Samuel Howard, George Steel and Messrs. J. Hunter White, R. T. Hayes, James M. Lemont, R. D. Smith and James M. Palmer.

Dr. T. Albert Moore addressed the conference on national campaign and evangelism.

The following were appointed supernumerary committee: Revs. H. George Youngs, Dr. Steel, Thomas Marshall, J. M. Rice, J. J. Pinkerton and F. H. M. Holmes and Messrs. Palmer, Snowball, Henry Smith, John J. Weddall, E. R. Machum and J. King Kelley.

The first draft of the station sheet was placed on the table. Changes have taken place in the following places since publication was made: Gibson, Boiestown, Sheffield, Lindsay, Centreville, Derby, Campbellton, Bale Verte, Alberton.

The committee on the Forward Movement will report that the Conference objective on the Forward Movement, etc.

For and on behalf of the St. John's Municipal Council.

ment has been far exceeded, with a total of \$173,223.25.

A very impressive sacramental service was held last evening, conducted by President Thomas. An address was delivered by Captain A. J. Croft, of the Methodist Episcopal Church.

At a meeting of the Laymen's Association last evening an address was delivered by the president, W. B. Snowball. The following officers were chosen: W. B. Snowball, president; Charles A. Samson, vice-president; J. King Kelley, secretary-treasurer; Alfred Burley, St. John, James Lemont, Fredericton, John A. Lindsay, Woodstock, D. A. Nesbit, St. Stephen, Alderman Mersereau, Sackville, Frank Smith, Charlottetown, Henry Smith, Summerside, E. H. Wright, district executive.

The president's address recommended laymen's association in each congregation to help the pastor lead boys aright and extend the church.

HOUSE MISSING.

The difficulty of finding a house is not exclusively an eastern problem. Out in Kansas, for instance, a native observed a stranger looking around and centured to say, "Good morning, sir, house hunting?" "Yes," replied the stranger, "I wonder if it could have blown this far?"

PROCLAMATION

GEORGE the FIFTH
by the Grace of
GOD, of the United Kingdom of Great Britain and Ireland, and of the British Dominions beyond the Seas, King, Defender of the Faith, Emperor of India.

WHEREAS in the matter of the election of two members for the House of Assembly, for the Electoral District of Bay de Verde, holden on the third day of November, 1919; and in the matter of the Election Petition between Albert E. Hickman as Petitioner and William H. Cave as Respondent, the Honourable the Chief Justice, and the Honourable George M. Johnson, Judges of our Supreme Court, certify that the Respondent is shown not to have had a majority of the votes cast at the said Election, and therefore not to have been duly returned;

And whereas the said Judges further certify that the Petitioner has personally committed Acts in breach of the Election Act, and has not been duly elected;

And whereas a vacancy has thereby been created in the representation of the said Electoral District, and it is Our will and pleasure to issue Our Writ for the election of One Member to serve in the House of Assembly for the said Electoral District;

We do, therefore, order and direct that the Nomination of Candidates for the said District of Bay de Verde shall take place at Western Bay on Monday, the Fourteenth day of June, instant; and

For the said District of Bay de Verde the Poll shall be taken at Old Perlican, at which place there shall be opened two booths; at Daniel's Cove, one booth; at Grate's Cove, two booths; at Red Head Cove, one booth; at Bay de Verde, two booths; at Low Point, one booth; at Canlin Cove, one booth; at Lower Island Cove, two booths; at Job's Cove one booth; Long Beach, one booth; at Burnt Point, one booth; at Gull Island, one booth; at Northern Bay, one booth; at Ochoe Pit Cove, one booth; at Western Bay, three booths; at Bradley's Cove, one booth; at Adam's Cove, one booth; at Blackhead, one booth; at Broad Cove, North, one booth; at Broad Cove South one booth; at Mulley's Cove, one booth; at Lower Small Point, one booth; at Spout Cove, one booth; at Perry's Cove, one booth; at Salmon Cove, two booths; at Otterbury, one booth; at Blow-me-Down, one booth; at Flat Rock, one booth; at Clow's Cove, one booth; at Freshwater, two booths; And there shall also be opened at St. John's one booth; At any one of which booths Electors dwelling within the said District of Bay-de-Verde may deliver their votes.

And the said Poll shall be taken at the above-named Stations in and for the aforesaid Electoral District of BAY-de-VERDE, on Thursday the Twenty-fourth day of June instant, and in conformity with the laws and statutes of Our said Colony in that behalf made and provided.

Given under the Great Seal of Our said Colony of Newfoundland.
Witness our trusty and well-beloved SIR CHARLES ALEXANDER HARRIS Knight Commander of the Most Distinguished Order of Saint Michael and Saint George, Companion of the Most Honourable Order of the Bath, Commander of the Royal Victorian Order, Governor and Commander-in-Chief in and over Our said Colony, at St. John's, in Our said Colony, this 2nd day of June, A.D. 1920, and in the Eleventh year of Our Reign.
By His Excellency's Command,
R. A. SQUIRES,
Colonial Secretary.

Serious Rioting in Londonderry Is Renewed

The Authorities are Powerless to Stop the Fighting

LONDONDERRY, June 21—Rioting was renewed in this city this morning and resulted in one person being mortally wounded and two seriously hurt. Rifle and revolver firing was almost continuous and as people feared to venture out to work business was at a standstill. The mob this morning openly fired on troops. At one o'clock this afternoon rioting was still in progress. John Gallagher one of the men wounded in yesterday's fighting between Unionists and Nationalists died today bringing the number of deaths in the present outbreak of party strife up to six.

LONDON, June 21—Civil war conditions prevail in Londonderry and the authorities are powerless to declare in an Exchange Telegraph Despatch from Londonderry this afternoon. Several additional persons were killed in this morning's fighting there, according to this message. The firing is being maintained with desperate

intensity, business is suspended and postmen are declining to deliver mails. When the troops stop fighting in one sector the despatch adds firing breaks out in another.

LONDONDERRY, June 21—During the rioting Saturday night in which five persons were killed and ten injured seriously, McVeigh a laborer was on his way to a butcher's shop when reaching the end of Tower Street a bullet struck him in the throat. He struggled in a dying condition toward a public house nearby, where he fell. Owing to the fierce fusillade it was impossible to go to his assistance but eventually a man rushed through the shower of bullets and dragged him to shelter. No ambulance was available and an attempt was made to carry him to an infirmary on a shutter; he died on the way. The other man killed was standing in the doorway of his lodging when struck by two bullets. One entered his stomach proving fatal almost immediately.

Turkey Will Have No Time Allowance

BOULOGNE, June 21—Turkey will not be given an extension of time to consider the Peace Treaty according to communicate given out by delegates after their return from the Conference tonight the communique says. "The Turkish question has been considered and it has been decided to maintain the date of June 26th. for Turkey to submit to the peace conditions." Marshall Foch and Field Marshall Sir Henry Wilson obtained approval of text of allied notification to German government regarding the disarmament and destruction of war material and reduction with least delay of troops as prescribed by the treaty of Versailles clauses which have not been executed or which have been incompletely fulfilled thus far.

Covering Ireland

LONDON, June 21—Plans for motor lorry transport system covering the whole of Ireland in case of trouble over handling of troops and munition trains results in general strike have been worked out by the government, it promises sufficient and efficiency system of transport as was inaugurated by the railway strike in England

YOUNG PEOPLE'S MEETING AT WESLEY CHURCH

The first of a series of public meetings in connection with the annual Conference of the Methodist Church of Newfoundland was held last night in Wesley Church, which for the first time is entertaining the Conference. The meeting which was in the interests of Young People's work, was presided over by the Rev. E. W. Forbes, M.A., B.D.

Prayer was offered by the Rev. O. Jackson of Brigus, who also in the absence of the Conference Sunday School Secretary, gave a report of the Young People's work of the Conference, especially as it pertained to the St. John's District, the data relating to the other District being not yet to hand. The speaker of the evening was the Rev. Dr. Pedley, late pastor of Emmanuel Congregational Church, Montreal, and one of the strong men of Congregationalism.

The reverend gentleman in a very scholarly address advocated the cause of religious education. The need of such was the more urgent because of the tremendous experience through which the world had so recently passed. There was a call to Christian education. The great world war was precipitated as a result of the kind of education in vogue in the Germany of pre-war days. The speaker went on to show that we need to sound a note of reality. We must be Christians. One of the great tests of the reality of our Christianity was the money test. He made it very clear what was the Christian view of money. No follower of Christ will love money, and if he makes it, it will be made honestly, and also spent honestly. Another great test of the reality of our Christianity was the democratic test. There is the Christianity of looking on men.

Dr. Pedley proceeded to point out that the Church needed to sound a note of advance, and spoke of the rapid progress of Methodism. In conclusion he stated that the third great urgent note of the Church was the note of unity. The speaker who is one of the most ardent of "Church Unionists" showed how that a compulsion of a common need and the attraction of a great leader, made the desire for unity apparent.

Dr. Pedley is to deliver a series of devotional addresses at the Conference sessions, which are open to the public. An opportunity will thus be given to all to hear this distinguished pulpit orator.

CIRCULAR LETTER

TO EX-MEMBERS OF THE ROYAL Nfld. REGIMENT.

Every possible effort has been made to discover the location of the graves of the following men:—No. 2532 Pte. Cecil Rose, 3158 Pte. William Ivany 3014 Pte. Arthur J. Chaffey, 3696 Pte. Esau Baker, 3511 Sgt. Percy Pitt, 3544 Pte. Neville Samson, 3332 Pte. Marcus S. Wiseman, 3270 Pte. Albert P. Wagg, 2869 Sgt. Thomas J. Kean, 208 Pte. George T. Kane, 2363 Pte. Frank H. Simms, 3168 Pte. Charles Chaytor, 3119 Pte. John A. Ivany, 1920 Pte. Edward Hickey, 1355 Cpl. Thomas Lynch, 3404 Pte. Arthur Pittman, 3357 Pte. Wilson Benson, 2646 Pte. Aaron King, 3692 Pte. Dorman Butt, 3329 Pte. Patrick Keating, 1998 Pte. Stephen Martin, 303 L.-Cpl. Arthur G. Ballam, reported by the Germans to be killed in action on December 3rd, 1917. These men were reported by the Germans to have been buried by the Lower Alsatian Regiment at Saranvillers, five miles from Maroing and four miles south-south-east of Cambrai, Major Nangle reports the foregoing and states that the inhabitants of Saranvillers know nothing of any such burials; nor can any trace of a German dressing station be found in the village.

The War Office and the Imperial War Graves Commission are doing all in their power to investigate the matter. Any reliable information that can be supplied by an ex-member of the Regiment would be of valuable assistance in carrying out the enquiries. The final search for bodies in the Cambrai area is now in progress, and it is, therefore, very important that any information as to the wounding, capture, manner of death, or burial of any of the above soldiers, should be at once intimated to this department if you are able to give any information whatever, please write me as soon as possible.

Wash Day and Backache

WASH day is the least welcome day of the week in most homes, though sweeping day is not much better. Both days are most trying on the back.

The strain of washing, ironing and sweeping frequently deranges the kidneys. The system is poisoned and backache, rheumatism, pains in the limbs result.

Kidney action must be aroused—the liver awakened to action and the bowels regulated by such treatment as Dr. Chase's Kidney-Liver Pills. This favorite prescription of the well-known Receipt Book author will not fail you in the hour of need.

One pill a dose, 3 or 4 at all dealers, or Edman, Bates & Co., Ltd., Toronto.

ST. JOHN'S, NEWFOUNDLAND, TUESDAY, JUNE 22nd, 1920.

THE SALT SCARE SUBSIDES!

THE Tories, led by Sir John C. Crosbie, almost shed tears over the salt situation a while ago, and though assured by Hon. Mr. Coaker that the Government would certainly see to the matter, Sir John could not be satisfied, and even now, when he is enjoying a trip to London, he still thinks that the country cannot be run by anyone else, and tells us that the salt situation is serious.

As a matter of fact, there seems to be plenty of salt, and three or four firms are spending money every day in advertising 'Salt for Sale.' If there were a great salt shortage, these firms would not need to advertise, and we were told yesterday that there was no rush whatever in the salt business, that buyers were scarce, if anything.

This shows that the salt scare was only a political dodge to frighten the country and influence the election in Bay-de-Verde; Sir John's cable in which he gives to Mr. Puddester the task of stabilizing the Fish Business is one of the richest jokes of political life, and it is really too bad that Sir John would make such fun of Mr. Puddester. It shows that Sir John Crosbie does not care one straw whether Mr. Puddester is elected or not, just as his sympathies in the Bay-de-Verde Electoral trial were said to be not with Mr. Hickman.

The people of Bay-de-Verde, just like the people all over the country, have become fed up with these political dodges, and they know of old that the Tory tricksters are politicians first, and patriots when it suits them.

The outcry about the Fish Regulations is the most flagrant of political dodges. The facts are that Sir M. P. Cashin, Mr. Bennett, Mr. Fox and the Opposition present in the House, VOTED FOR THE FISH REGULATIONS. They endorsed Mr. Coaker's ideas and wished him success. Yet Mr. J. C. Puddester, Sir M. P. Cashin's candidate in Bay-de-Verde, has a circular printed for him which says "Vote for Puddester and no regulations." Cashin and Bennett have voted, as we have said, for these Regulations, but Mr. Puddester says "If I am elected, there will be no Regulations." How in the name of common sense, can that be, and what sort of a campaign is being waged in Bay-de-Verde!

I---W. AND J. MOORES!

W. and J. Moores, of Freshwater, B.D.V., on June 8th sent the following broadcast through the district of Bay-de-Verde. In it that firm announces several opinions it holds about the Fish Regulations, and presumably about all Export restrictions in the shape of inspection of fish, etc.

Here is the famous circular:

Freshwater, B. D. V.,

To whom it may concern:

I heartily endorse the Candidate for Bay-de-Verde Bye-Election, Mr. J. C. Puddester, and am doing my best and campaigning on his behalf. The iniquitous fish regulations are strangling the Trade of the country, and the issue in Bay-de-Verde is, are we satisfied with present conditions? I am fighting with all my strength for Puddester, and am asking you to do the same. My opinion is that if regulations are not stopped I and others will have to go out of business. Protect your interests, men of Bay-de-Verde, and elect Puddester. (Sgd.) W. & J. MOORES.

"I and others will have to go out of business," says Mr. Moores. That has been said long ago by other merchants, but, they are not out of business yet!

The reply to this circular is a distinct statement that as far as the pickled fish which is to be obtained in Bay-de-Verde is concerned, this fish when well made, will be worth Twelve dollars a quintal, and this under the Regulations.

That is an answer that ought to satisfy Mr. Moores as well as the fishermen of Bay-de-Verde.

THAT FISH MESSAGE!

The "News" had a scare message this morning about the Spanish fish market. The fish spoken of is probably old fish that should never have been sent to that market and unsuitable for the Trade there.

Here is the message that shows the real situation. This is from Oporto and shows the stock of Newfoundland fish is 33,600 and the weekly consumption of 10,972 qtls, which means that Oporto will be clean in about three weeks.

And the best news of the lot is that Oporto holds no Norwegian fish. This Norwegian fish was dumped in this market by the British Government, and was the 1918 catch. It was being sold at any price that could be obtained. Consequently the market is shaping itself splendidly for our new catch. There can be no doubt that new fish is going to get good prices. Bay de Verde Electors can depend upon that. They will not want to go back to Tory Rule; the country had ten years of it, and turned the Tories down last Fall, and looks now to Bay de Verde to reaffirm that decision by electing Cave. That district should not be swayed by political catch cries by irresponsibles.

Support a Constructive Government, not a destructive opposition.

PEOPLE ARE NOT MOVED BY THE TORY TRICKSTERS

The electors of Bay de Verde will, on Thursday next, decide whether they are to have Mr. Puddester represent them on the Tory side of the House or whether they are to have Mr. Cave representing them, as a Departmental Minister in the Liberal Reform Government.

There is only one sane course for Bay de Verde electors to take, which is to elect Mr. Cave, the Minister of Shipping, and thereby throw in their lot with the Liberal Reform Party, who in November won such an overwhelming victory over the Tory Party of Grafters who are now using every despicable means to foil J. C. Puddester upon them.

There is nothing to be gained by the election of Puddester. There is everything to lose by having the Tory nominee represent Bay de Verde district in the Opposition.

Of course the Tory "hang-er-downs" of the McGrath, Cashin type, who are weltering from their November licking, would relish the election of Puddester; but it doesn't require a keen sense on the part of the electors to realise that it is not the interest of the district or the fishermen of Bay-de-Verde about which these politicians are anxious.

If the Tories wanted to serve the electors of that district they would desist from their outrageous campaign of misrepresentation and falsehood, and cease from treating the fishermen as "ignorant cullage" to be duped by every concoction of their politically diseased brains.

Every political scheme perpetrated upon Bay de Verde district by the Cashin-Tory grafters have constituted a gross reflection upon the good sense and intelligence of the fishermen in that district.

The Tory press have, during the last few days assumed an attitude that bespeaks the knowledge on their part that the district is inhabited by electors who can be coddled by whatever political game that the Cashin-McGrath confederates might choose to play.

Such insulting reflections on the district will be resented strongly on polling day by the Bay de Verde voters, who are not, however much the Tories might think so, the dupes of that discredited gang.

To take one instance, viz., the Fish Regulations.

Every Opposition member, including John R. Bennett, the would-be Knight, endorsed the regulations of the Liberal Reform Government, and individually asserted there was not the least objectionable feature in them.

We now find the Opposition press screaming "murder" against this very measure their political "bosses" supported; and it is reported that J. R. Bennett is using the same tactics that he used against the Premier and Mr. Brownrigg in the St. John's West bye-election, which subsequently he admitted was a pure game of political coddery; for did he not vote for the same regulations he, at that time so hypocritically condemned, and now Bay de Verde fishermen are asked by this individual to be deceived by the same despicable game, which so miserably failed when used by him against Prime Minister Squires and Minister of Finance Brownrigg.

The Liberal Reform Government has accomplished and will accomplish greatly during its term of office. Behind that Government, the people stand in larger numbers than ever before in the history of a political party.

Therefore, it is in every interest of Bay de Verde district, to throw in its lot with the People's Government, and on Thursday they will show the country that they will not forfeit the interests of their district to satisfy the political games of Tory wirepullers.

CAVE WILL WIN.

AT THE COUNCIL

The Legislative Council met yesterday at 4.30 p.m., and but little progress was made. The Inspection of Sealing Ships Bill was in Committee, and while it was felt to be a very necessary bill, Hon. Dr. Campbell pointed out various discrepancies in it, especially where the power to make Rules and Regulations is given to the Inspector on each ship, instead of emanating from some central authority such as the Public Health Department. He pointed out that whereas the medical men on board the sealing steamers visited the quarters of the men three or four times a day, the Inspector was only asked to do it once. The Act was a jumble and needed reconstruction.

The Committee rose in order to refer the Bill to a Select Committee who will draft amendments necessary.

The Motor Association Bill was also discussed in Committee.

Hon. Mr. Murphy asked that a section be put in the Bill making it compulsory to use concrete culverts, or iron pipes instead of the many small wooden bridges which are to be found everywhere. Concrete was less costly, and was better in every way, and he thought some provision ought to be made to make sure that wooden bridges should not be used.

Hon. Dr. Campbell agreed with the suggestion, pointing out that the concrete bridge would not be such a mark for the politician in election time, as during the Fall election he found that all the wooden bridges in the district of St. John's West had been dug up in order to give someone a job to lay them again!

Hon. Mr. Gibbs, in charge of the Bill, did not know whether it was advisable to put such a provision in the Bill and thought the Road Commission would certainly see that concrete culverts were used if they were more suitable than wood.

Hon. Mr. Mews pointed out that the Bill took in the whole district of Trinity, and enquired what return would be given the owners of motor cars, on the North Side of the Bay. These became liable for the tax but would certainly not share in the benefits of the road making machinery, which would be imported and used on roads which led from St. John's.

The Bill will probably be amended to exclude the North Side of Trinity Bay. The Committee arose in order to consult further with those responsible for the Bill, and the Council adjourned until Friday next.

Oddfellows

On Thursday there arrived on the s.s. Digby, Bro. Past Grand Master, Craig, the well known druggist of Yarmouth, and one of the most liked and highly respected members of the Grand Lodge of the Maritime Provinces and the Dominion of Newfoundland. On arrival Thursday he was met by the reception committee and escorted to the home of Bro. Jos. Moore, another most generous and highly valued Oddfellow.

Friday night the distinguished visitor visited Colonial Lodge, and was given a right royal welcome by members of all lodges in the city. Saturday quite a bunch proceeded to Bell Island, and met the officers and members of the new I.O.O.F. Lodge, recently instituted. The boys on the Iron Isle were glad to see them, and extended a hearty welcome to come again.

Last night Bro. Craig accompanied by Bro. J. C. Phillips, D.D.G.M., paid a visit to Atlantic Lodge, No. 1, and was given a right royal reception by the large number of brethren assembled. After the conferring of the 2nd degree by Bro. Claude Noonan of Colonial Lodge, assisted by Bro. P. G. Spurrel and the able degree team, the N.G. Bro. Wm. White, extended in his well known dramatic style, a sincere and hearty welcome.

Bro. Craig replied in choice language, and in order to express in some measure his sincere esteem and high regard for the members of Atlantic Lodge, No. 1, I.O.O.F., and as a slight token of deep appreciation of many kindnesses and personal courtesies, he bequeathed to Atlantic Lodge, No. 1, I.O.O.F. several Newfoundland Government bonds, the interest thereof to be expended yearly in the purchase of suitable engraved Past Grand Jewels or combination Jewels. Similar bonds were presented to Colonial Lodge and Wabana Lodge, Bell Island. Bro. Craig also in the course of his remarks made mention of a home scheme fund, which is to provide a home for aged Odd Fellows; some money have been provided but not enough, he urged every member of this jurisdiction to subscribe to this worthy object.

Among the many interesting features of the evening, was the presentation of a Veteran Jewel, to Bro. J. A. Adrian, P.G., and a Past Grand Jewel to Bro. Alex. Rooney.

The visitor will stay here until Thursday, when he will likely visit Exploit sLodge, Grand Falls. Wednesday

CUSTOMERS SEEKING SATISFACTION!

MARSHALL BROTHERS

THAT NO QUORUM

Yesterday afternoon the House was obliged to postpone its sitting because of a snap vote called for from the Opposition benches. This morning's Daily News with its usual regard for truth, announces the fact, and couples with it the puerile excuse that the Government was responsible for the delay in opening the House. As a matter of fact, there were several Opposition members lounging in their chairs in the Opposition rooms who failed to answer the repeated ringing of the Speaker's bell, calling them to their places. The only two who put in appearance at roll call were Messrs. Sullivan and Higgins. Had the others been in their places business could have been proceeded with until the arrival of the Government members, who were busily engaged until they entered the House. The tactics of the Opposition are so well known to the House and the public generally, that they only succeed in making themselves more ridiculous in the eyes of the people, when they attempt to impede the transactions of public business at this season of the year.

SUGAR

Your Tory contemporaries may rave and rant about sugar, but the fact that the sugar dealers are holding meetings asking for more profit is sufficient to show the people that the consumers' end is being taken care of by the Food Board.

There are those who know about these things, and they estimate that, given a free market and no control, many a sugar speculator would gladly take over the Food Board's holdings day a banquet has been arranged at Forest Pond, and a jolly time is anticipated.

LALEY LIGHT AND POWER NOW READY FOR PEOPLE IN THIS SECTION

This announcement of our agency for Laley-Light should interest every farm family which wants the advantages, the savings and comforts of reliable electric light and power.

Laley-Light is an independent electric light and power plant. It has been in actual, every-day use for ten years, and has been so successful and reliable that we welcomed the opportunity to represent it here.

It is manufactured by the Laley-Light Corporation, of Detroit, Mich., one of the two largest firms in the world engaged exclusively in this business.

We believe it is the best perfected farm lighting plant on the market. It has only three moving parts: is water cooled like the famous Liberty motor; runs as quietly as a sewing machine; and is enthusiastically endorsed by thousands of owners in the United States and every civilized country the world over.

Laley-Light brings to the farm the city convenience (at a lower cost than in the city) not only of sure, safe electric light, but power to pump water and run many farm and labor-saving devices—cream separator, churn, grindstone, fanning mill, washing machine, vacuum cleaner, electric iron, and so on.

In the labor which Laley-Light saves it actually pays for itself before the first year is up.

This is entirely aside from the sheer comfort and convenience of having electric light on the place.

We are ready to demonstrate Laley-Light at our store and to make installations promptly.

Be sure to come and see the plant in operation.

LOVE OF THE SEA

Oh! June it is here with flower, and with bee,
With sunshine, and wild birds singing!
On hill, and in valley, on lawn, and on lea,
Fair flower and sweet fruit they are springing.
Oh! the land it is green, and the land it is fair,
And the Western wind it is blowing;
But we turn from the land, and we turn to the sea;
To the sea that we love we are going!

Oh, sad were we when we looked to see
The blue of our native ocean,
And saw but a stretch of ice-fields white,
Chill, silent and free from motion;
But the ice-strewn sea it is free again,
Unfettered its waves they are playing;
On the shifting sands of gulfs and bays
The millioning cods are laying.

Oh! soon again o'er the harbour bar,
In the dawn we will be racing,
In the last pale light of the morning star
That the shadows of night are chasing;
Ere the lark has sped from her lowly nest,
And the beast from his lair and burrow,
We'll be speeding free o'er the ocean's crest—
Afloat on the sounding furrow.

We'll watch the Sun as he'll rise from rest,
The sky in the East adorning,
And we'll feel the breath of the rising gale,
Fresh, fragrant, the pride of the morning;
We'll list to the waves as they beat on shore,
As a child to the mother singing;
While we reel and rock on the restless waves,
The foam from our high prow flinging.

We roam the sea—the restless sea,
When it's waters are quietly sleeping,
When it's waves are lashed by the wild winds free,
And women on shore are weeping,
We have feared the sea in its wild wood free,
High crested and deeply hollowed—
Yet we love the sea, the fruitful sea,
The sea that our fathers followed.

Oh! the sound of the sea—the voice of the sea
Is sweet as the bells of Shandon;
In the blood of our veins is the call of the sea,
In it's calm, and it's wild abandon.
Oh! the land it is fair as the land can be
When the warm breath of Summer is blowing;
But we turn from the land, and we turn to the sea,
To the sea that we love we are going.

ALLAN G. DWYER,
Tilting.

Call of Country in Peace Time

Joseph Gilbert Joyce of Carbonara, N.B., received the degrees of Bachelor of Sacred Theology and Bachelor of Education at the annual commencement exercises of Boston University at Tremont Temple on Wednesday, June 16th.

Over four hundred students coming from twenty-seven different states, from Havana, Honolulu, Newfoundland and the British West Indies, were granted degrees this year by the trustees of Boston University. This large number was due to the fact that Boston University now has over 6660 students registered.

The School of Religious Education granted this year, for the first time, degrees to twenty-two students. This is the first school of religious education in any university to be recognized as a separate department capable of recommending for distinctive degrees.

Miss Georgia E. Harkness of Harkness, N.Y., has the distinction of being the only student in the University who received two master's degrees. The degrees conferred upon her were Master of Arts and Master of Religious Education.

Hon. Wendell Phillips Stafford, Justice of the Court of the District of Columbia, and graduate of Boston University School of Law in 1883, delivered the commencement address. He said in part:

"What the public has to do to-day is to organize. When things get to the pass they are in to-day there is only one remedy left, a rousing call to the people themselves to take things into their own hands once more, to send all timid, time-serving, incompetent public servants home, and to call out the strong and fearless men, the upright and clear-headed men, to take their place.

"Such men there are, all through the land. They will come out if they are called; and when the crisis gets to be acute, they will be called. They must be called. There is no other way. There is no royal road to safety. There is no chance or hope in democracy unless we can trust to the plain, honest intelligence of the millions in a time like this. If we cannot build on that we have nothing left to build on.

"We can give up family and friends, fireside and books, health, ambition, even life itself, at the call of our country, in time of war. Can we not do the same when our country calls us in time of peace? What is peace worth, what is our triumph in war worth, if we cannot? Nothing. A country is not worth such sacrifices, if it is only

to be a place where men have liberty to prey upon each other, and where each may grab all he can get from the common store. Out of the millions of open sepulchres this war has left, may the wave of a new spiritual life rush out upon the world, lifting mankind to a new knowledge of the Christ."

Sunken Treasure

Youthful recollections of stories of the Spanish Main and the hunt for treasure trove are revived by the quest of the British Admiralty salvage ship Racer, which has left Southampton recently with the object of recovering 3,000,000 pounds worth in gold from the bullion on the Laurentic, which has lain at the bottom of the sea on one of the wildest parts of North Irish Coast since early in 1917. The wreck lies at a depth of over twenty fathoms and early attempts at salvage failed through bad weather and the menace of the German submarines. Further salvage operations were deferred until after the armistice, but when the Racer made her first attempt in 1918 difficulty arose. Two years constant pounding by the Atlantic swells had worn the wreck to a heap of debris and the decks had settled down one upon another. The height of the pile was not more than 10 ft. and covered an area of some hundreds of feet. As a result of this it took two months to discover in what part of the wreckage the gold was located the method pursued being to find such details as the lie of the boat's davits and to ascertain which was the fore and aft of the ship. Then by careful calculations it was decided where the gold lay. But this was only the beginning of the task. It became necessary to place rings of explosives on the exposed plates and cut out a section, exposing girders and more plates, below, through by explosives until the layer containing the gold was reached. The strong room which had previously been a room of about 12 ft. in height, had been pressed out to a height of a few inches. Accordingly when the gold was exhausted from one section until the treasure was found again. This time the Racer is going well prepared for all difficulties. She has on board a pump which will lift 500 tons an hour, not only water but of coal mud and small wreckage. Last year about half million worth of gold was rescued, and it is hoped that this season will see the task three million pounds which, it is estimated remains on the Laurentic.

The former White Star Liner was bound to Halifax with the gold when she was sunk.

CONGRATULATIONS

(To the Editor.)

Dear Sir,—Please allow me space in the columns of your paper to say that the people all over Placentia Bay are delighted with the attitude of the Squires Government towards the Woman Suffrage petition. Ladies and gentlemen are unanimous in this verdict, and I am glad to be able to say that our women are out of and above politics. I wish also to say that the people in this vicinity who are accustomed to take passage by the s.s. Argyle are pleased to know that Chief Officer Murphy has been raised to the top notch on board this ship. Mr. Murphy has been many years on board the s.s. Argyle and his courtesy and kindness are well known and appreciated by the travelling public. The fact that his seafaring abilities have borne the test of years and experience is further proof of his fitness for the position.

Congratulations are general, and we wish Capt. Murphy who is now making his maiden trip, a long and successful term in command of the good ship.

TRAVELLER.

LATEST.

LONDON, June 21.—The Government this week is likely to sustain a somewhat rough handling in the House of Commons regarding expenditure. Wednesday operations in Mesopotamia will be criticized, also the cost of proposal to reclothe the army in scarlet.

Lord Northcliffe's group of papers for some time has been making dead set against Austin Chamberlain, Chancellor of Exchequer. They are now being joined by other anti-Government journals, who do not often and themselves much in agreement. It is asserted that the Coalitionists are averse to the scarlet uniform proposal, and have been officially warned that a vote against the proposal will be interpreted as a vote for a change of the Government's alleged extravagance.

VANCOUVER, June 21.—Four victims of the Balmoral apartment house fire in which at least six persons are known to have lost their lives last night, had been

identified today, they are: Charles Dennisey of the Canadian Pacific Steamship Co. and Miss Letta McLennan, employee of the Canadian Pacific Steamship Co. J. R. Jackson, manager of the Grocery Department of the Hudson's Bay Co. and S. A. Spencer, janitor of the building. Loss one hundred thousand dollars.

SAVANNAH, GA., June 21.—Philip Gaithers, a negro, was lynched near Rincon, Ga., today after he had confessed to the murder of Miss Anza Jaudon, seventeen years of age, last week. Gaithers was arrested today near Stillson, Ga., on information furnished by another negro.

WASHINGTON, June 21.—Special service squadron of cruisers and gunboats to be based on canal zone held available for duty in Mexico, Central America and adjacent ports is to be organized about October first it was announced at Navy Department.

NEW YORK, June 21.—Branch of the Bank of Montreal here today acknowledged the receipt of four million dollars in gold from Canada. There is no justification for the reports that the gold is for the account of the Anglo-French loan expiring next October it was said. The consignment probably is to be used in payment for commercial transactions originating in this market it was added.

WATERBURY, Conn., June 21.—Three men were shot during a riot

Fogo Mail Service

War Memorials Inscriptions

Views Well Worthy of Attention.

(Church Times, London.)

Perhaps for yet a long time to come, both in towns and villages, the work of raising war memorials will go on. We should like to think that, apart from their marking the desire to honor the dead, they all, or the majority of them, have that in them which, when the personal relation between the commemorators and the commemorated no longer subsists, will appeal with its fitness and beauty to future generations. The experience, however, of the Jubilees, and the only too obvious tastelessness of the monuments erected in our churches during the last century, lead us to fear that very many of the war memorials have been raised with little care for the real worthiness of the offering. It by no means follows that by doubling the contributions at first asked for and placing an increased order with a contracting firm we can be sure of obtaining a better thing. A more costly thing, of course, we shall get, but not necessarily a better one. A quite humble memorial made by village hands, provided that in its modest, simple way it expressed the pride and grief of the villagers, would be worth infinitely more than the expensive product of a tradesman's workshop, pompous and expressionless. We sadly fear that many mistakes have been made, that committees and private givers of memorials have too often omitted to consult those who could have guided them aright, that churches and public places have been disfigured with new additions to the older specimens of unimaginative handwork.

Yet perhaps it may not now be too late to ask those who have in hand schemes for the raising of memorials to pause for a space and to consider whether their intended work will be on the right lines. We invite their attention to three pamphlets, in which they will find guidance. In all probability they have already decided on the form the memorial shall take, or this will have been determined by local circumstances. We make take it for granted that in every case there will be an inscription of some sort, and it is here that false taste or clumsiness is in danger of spoiling the whole memorial, whether the wording or the lettering or the arrangement of the lines is considered. An inscription, Mr. Clutton Brock observes in the pamphlet, "On War Memorials," says something, not for a moment, but for ages, and this should be well said, both in language and in the manner in which that language is recorded. A good inscription is one which says what is meant simply and finely, and in which the lettering is also simple, fine, clear and permanent. The words which we have italicized above should be especially noted. It is within the experience of everyone of us to have seen inscriptions which may perhaps have truly represented the virtues of the person commemorated, or have expressed what was for the moment the feeling in regard to some event or incident that it recorded. But is intolerable to us now, and, if we read it, we do so most likely from mere curiosity or because it has some antiquarian interest. It should, therefore, be the aim of anyone who sets up a memorial of any kind to commend it to posterity by means of words that may appeal to any age.

At all times epigraphy is a difficult art, and the choosing of a suitable inscription even for the humblest memorial is a matter not lightly to be taken in hand, if the hope is that it will touch the hearts of men yet unborn as it touches the hearts of the people of to-day.

Some time ago a letter appeared in the Times, in which the suggestion was made that war memorial inscriptions ought either to be written with due regard to style and to the importance of the occasion, or to consist of some suitable passage taken from the great stores of literature accessible to everybody. The letter called forth a large number of suggestions, and these have been collected by the authorities of the Victoria and Albert Museum, and used in the first place for the purpose of the War Memorials Exhibition. They are now offered to the public in pamphlet form.

Of course the Bible is freely drawn upon, but many of the extracts are familiar to us as inscriptions, except perhaps, this from 1 Samuel xxv, 16, "They were a wall unto us both by night and day," which is extremely appropriate. This by the Post-Laureate is pregnant with meaning:

Remember the love of them who came not home from the war.

The beautiful line from Callimachus, "Insured sleep he lies. Say not that the brave die;"

could be altered to "In sacred sleep they lie," etc., to adapt it to a general memorial. Villagers might well choose for their memorial this couplet by Mr. J. Maxwell Edmondson:

Ye that live on 'mid English pastures green

Remember us, and think what might have been.

Mr. Rudyard Kipling's "Who stands if freedom fall? Who dies if England live?" or Shakespeare's

This England never did, nor never shall.

Lie at the proud foot of a conqueror. Or the Epitaph (slightly adapted) of Simonides on the Spartans at Thermopylae—

Tell England (Britain) ye who mark this monument.

Faithful to her we fell and rest content;

or this by an unknown author:

Live thou for England. We for England died;

are some of the best of the shorter inscriptions, but the whole collection is worthy to be consulted. But if the preference is for original matter, Mr. Clutton Brock's advice is worthy of attention: "In an inscription, since it is addressed to posterity, the language should be grave, simple and quiet; above all, it should be neither slovenly nor precious." The way to write is "to discover what you wish to say and then say it as shortly and plainly as possible."

And then comes the question of lettering. On this subject Mr. MacLagan in his pamphlet, "On Inscriptions," has much to say that is of great value. In most cases, he remarks, "Roman capital letters of some kind are the best of all. No others are so clearly and easily read, and the variation in their lines and the spaces they occupy makes them incomparably beautiful." The so-called Black Letter should be avoided because it is so difficult to read and so monotonous in effect, if a mediaeval style is unavoidable, the

PURITY - QUALITY - ECONOMY

With the increased cost of labor and materials due to war conditions, it is not reasonable to suppose that a really first class baking powder can be made and sold at the old prices. Rather than sacrifice the quality of

MAGIC BAKING POWDER

we found it necessary to make slight increases in price during the war period. Even though Magic Baking Powder may cost a few cents more than the ordinary kinds it is still by far the most economical baking powder on the market to-day when purity, strength and leavening qualities are taken into consideration.

Contains No Alum

Made in Canada

Lombardie capital lettering is the best, though it is not easy to read. Other matters to be considered are the spacing and arrangement of the words, and their technique also. Generally, the letters should be incised, but if the inscription is cast in metal it is better to have the letters in relief. There are, of course, still further details to which attention must be given, but the first and most important point is that everybody concerned in a war memorial must take a good deal of trouble, "if an inscription is to be made a thing fine in itself and worthy of what it records." We would add finally that, if the memorial takes the form of a tablet, it should be remembered that what matters most is not the frame or border but the inscription.

Conveyed Greeting Under Instruction

Answer of Anglican Chancellor to Criticism.

OTTAWA, June 8.—The Ottawa Citizen this afternoon publishes the following:

The conversation about the corridors of the Presbyterian General Assembly gathering in Chalmers church this morning bore almost exclusively upon what a large number of the commissioners called a remarkable letter published in the Citizen this morning. The letter was from a Church of England clergyman, Rev. R. B. Waterman, of Carp, Ont., and was signed by him. It stated that Canon Cody, of Toronto, and Mr. F. H. Gisborne, K.C., Chancellor of the Diocese of Ottawa, in appearing before the Presbyterian General Assembly as they did three days ago to convey to that body "the hearty greet-

ings of the Church of England in Canada," had acted entirely without authority. The letter used the term "impertinence" in connection with Canon Cody's action and the term "bumptious" in connection with that of Mr. Gisborne. Other terms in the letter are "freakish excursions," "irresponsible members," "high-handed proceedings," "crude theories," etc.

Mr. F. H. Gisborne, K.C., was asked for a statement as to just what his action had been in the matter. He dictated the following statement:

"There has been a happy custom, of many years' standing, for the Church of England, the Presbyterian, the Methodist and other churches to send deputations to the meetings of the General Synod, General Assembly and General Conference, and to convey friendly greetings one to the other."

Archdeacon Cody and Chancellor Gisborne officially attended the meeting of the General Assembly, in accordance with the admirable practice, on instructions and by the authority of the Primate of the Church of England in Canada.

HALIFAX BALL TEAM FOR NEWFOUNDLAND

Locals May Play the Best Teams in St. John's During August.
Manager Grace Anxious to See Our Boys Perform.

HALIFAX, June 18.—An all-star Halifax baseball team, will likely play in St. John's, Newfoundland, the latter part of August. A local man has negotiated with Manager Grace of the All-Stars, and it is understood that a satisfactory guarantee has been offered. It is planned to play three games in St. John's and one in the Wabana coal mining district where several good ball teams are located.

While the manager of the proposed local team will not as yet give out the names of the players who will go to St. John's, it is understood that Hap Hanlon, Nedder Hurley, Chic McLeod, Neil Wilkie and Nick Phelan will make the trip, which would probably take in eight days.

LEAGUE FOOTBALL

The Saints defeated the Collegians in last evening's game by a score of 3 goals to 2. In the first round the Saints scored 3 goals and their opponents 1 but just before the final whistle the latter again found the net. The game was a good one though the high wind from a westerly direction made control of the ball very difficult. Mr. F. Brien was referee and the players were:

SAINTS:—Goal, Lusa; backs, Tait, Carmichael; halves, Burridge, Elton, Foster; forwards, Young, Quick, Munro, Irvine, Quick.

COLLEGIANS: Goal, Volsey; backs, Chancey, Jance; halves, Parsons, Benson, Pike; forwards, Squires, Kendrick, Macklin, Smith, Coultas.

TO-NIGHT'S PLAYERS

The line-up in this evening's game will be:

FIELDIANS:—Goal, Rev. E. Fletcher; backs, G. Hunt, R. Chafe; halves, K. Martin, E. Chafe, A. Martin; forwards, M. Winter, T. Payne, E. Jerratt, A. Andrews, E. Ewing.

HIGHLANDERS:—Goal, Moore; backs, Cofford, Rose; halves, Reid Adams, Paterson; forwards, Butler McNeil, Watts, Halfyard, Spry.

FROM BATTLE HR.

The Reid Nfld. Co. had this message from Battle Hr. last evening:—"Weather dull, strong W. wind; ice moving off. No sign of Glencoe."

JOHN OLSEN HAS NOW THROWN HIS CRUTCHES AWAY

Halifax Man Was Unable To Walk For Rheumatism When He Began Taking Tanlac.

"I had quit work, was unable to walk and thought the rheumatism had laid me out for good but it's a fact, since taking Tanlac I have thrown my crutches away and simply feel like a new man entirely." The above remarkable statement was made recently by John Olsen, 44 Dresden Row, Halifax, who has been a seafaring man for the past forty years.

"For three years now I have been troubled with about as bad a case of rheumatism as any man ever had. My legs ached all the way from my knees down to my feet and for weeks at a time I was unable to walk a step. My knees were so swollen and stiff I could hardly move them at all and at times my legs were as stiff as a board. Even my ankles and feet would swell up so bad I couldn't get my shoes on and the muscles and leaders in my legs felt like they were tied in knots. I had sharp shooting pains all through my lower limbs that felt like a thousand needles sticking in me, and a good night's rest was simply out of the question; why sometimes I couldn't sleep a wink. Whenever I was on the ship they had to lift me out of my bunk and carry me around like a child. I was almost as helpless as a baby and thought I would lose the use of my legs entirely. Last September when we arrived in Sydney I realized I couldn't work any more, so I had them to carry me ashore and put me on the train for Halifax. When I reached there I couldn't walk a step and had to be carried from the depot to the house in a cab.

"Well, while sitting around the house all the time, I took to reading a good deal and each day I noticed the statements about Tanlac. So finally, I decided to try it myself. The first few bottles didn't seem to help me much but I realized my case was stubborn and I stuck to Tanlac. And I want to say right now it was a lucky thing for me that I did. The swelling and stiffness soon began to leave me and I was able to walk with the aid of two crutches. I kept right on taking Tanlac until now I have thrown my crutches away, can walk as good as I ever could in my life and the pains and aches have all disappeared. My appetite has improved and I have picked up several pounds in weight, and altogether I am feeling better and stronger than I have in many years. Tanlac is certainly a great medicine and I take pleasure in recommending it."

Tanlac is sold in St. John's by M. Connors; in Gull Island by L. Stockwood & Son; in English Harbor by Jeremiah Pettit; in Bonavista by W. H. House; in Little Bay Island by Edgar D. Jones; and in Cape Broyle by J. J. O'Brien.

"BIG MONDAY"

Saturday the fishermen of Petty Hr. did very well and secured from 1 to 8 qts. cod on the jigger. Mr. P. Howlett of that place tells us that yesterday, Monday, June 21st, 23 years ago, has been known since by the people there as "Big Monday." On that day fish were so plentiful that the boats loaded several times with the largest kind of cod and traps were also filled. It has since been a memorable event in the annals of the place. Up to that day fish had been abnormally scarce.

IN DISGRACEFUL CONDITION

We draw the attention to those interested to the head of Quidi Vidi Lake which is now in a disgraceful condition, and demands immediate attention considering that in a few weeks hence the public will be enjoying Regatta Day there. It is filled with city refuse and garbage and excess from the South to the North Side of the lake is cut off as a result, except a crossing is made by boat. The aroma from this disease laden dump is anything but conducive to the health or pleasure of the passer by and somebody in authority should attend to the matter.

WEDDING BELLS

RING-LEE

A very pleasing ceremony took place at the Church of the Resurrection, New York, when Miss Kitty Ring was united in matrimony to Mr. Wm. Lee. The ceremony was performed by the Rev. Dr. McNulty. The bride's dress was of Copenhagen blue georgette, with silver and blue hat and she carried a beautiful bouquet of white carnations, lily of the valley and asparagus fern. The groom's present to the bride was a piano. After luncheon, served at the home of the groom's mother, they left by motor for Hartford, Conn., on their honeymoon, also visiting Springfield and Boston before returning to New York, their future home, where the groom holds a very lucrative position with the Elevated Electric Railroad Company.

GREEN-HUMPHRIES.

St. Thomas's Church was the scene of a very pretty wedding on Thursday evening at 8 o'clock, when Miss Beatrice Humphries and Mr. Ernest Green, both of Greenspond, B.B., were united in the bonds of holy matrimony by the Rev. C. A. Moulton. The bride was handsomely robed in champagne silk with bridal veil and carried a bouquet of orange blossoms. Mr. Alphaeus Wicks ably performed the duties of father giver, while Miss Gertrude Green acted in the capacity of bridesmaid. The groom being supported by Mr. George Barry. After the ceremony the bridal party drove to Wood's West End Restaurant where a sumptuous repast was enjoyed by the many friends present. The bride was the recipient of a number of valuable and handsome gifts, testifying to the esteem of her many friends. The groom's present to the bride consisted of a cheque, to the bridesmaid a gold brooch and to the best man a handsome tie pin. The happy couple leave by next Prospero for their future home in Greenspond.

FROM THE "GLENCOE"

The following message was received by the Reid Nfld. Co. last night from Capt. Tavernor of the Glencoe:—"5 p.m. Monday arrived Red Bay; strong westerly winds; hazy; heavy open ice along coast. Reached Henley's Hr. Tuesday last and during that night wind veered easterly with dense fog. Wednesday, endeavored to make Red Bay; but owing to heavy ice could not get around Barge Pt. and decided to return Chateau. Since Wednesday Easterly winds prevailed pressing ice on land, and was delayed 5 days at Chateau awaiting favourable conditions to return West."

TAVERNOR.

LOCAL ITEMS

Caplin are reported plentiful at Bonavista.

The gate receipts at last evening's football match amounted to \$150.

The Postal Telegraphs had a wire yesterday stating that the Glencoe had arrived at Chateau Sunday.

To-day across country it is raining hard, but warm, with the wind varying from S. to S.W.

The many friends of Mr. R. J. Devereaux who has been ill some time, will be pleased to learn that he is now gradually improving.

The baseball season will open to-morrow afternoon at 3 o'clock when the C.E.I. and Wanderers teams will be the contestants.

LEAGUE FOOTBALL — St. George's Field, at 7.30 o'clock this evening, HIGHLANDERS vs. FIELDIANS. Admission 10 cents. Grandstand 10 cents extra. Ladies free.

During last night's football game Chas. Quick of the Saints, was injured by a kick in the leg and had to leave the field.

Yesterday some of the trap fishermen working from the South Side of the city, had the first sign of codfish. Several took a number of large fish in their trawls.

BASE

A Wednesday afternoon, L C. E. I. vs. Wanderers. Gate 10c. Ladies free.

The express with a large number of passengers, including several of the clergymen who are attending the Methodist Conference, arrived here at 4.30 p.m. yesterday. The express brought about 200 packages of mail matter.

PILES

Do not suffer another day with itching, bleeding, or protruding Piles. No surgical operation required. Dr. Chase's Ointment will relieve you at once and afford lasting benefit. Get a box at dealers, or Edmundson, Bates & Co., Limited, Toronto. Sample box free if you mention this paper and enclose 2c. stamp to pay postage.

Caplin were brought to the city yesterday by vendors and certainly they asked a high figure for these tasty little fish. At the rate practically of one cent each, this would be a pretty dear dish, and few housewives invested. In the good old times of yore a bucket of caplin would be handed out gratis to all comers, in the city fish-markets. The H.C.L. seems to apply to everything nowadays.

POLICE COURT

Judge Morris, presided in the Police Court this morning. A girl whose home is in Heart's Desire, was before His Honor, charged with stealing a silver fox fur, a pair of boots, and a pair of gloves, while working on Bell Island. She admitted taking the fur but denied the other articles. Her present employer who had her shipped for the summer, will undertake to pay the \$50.00 fine, and the girl was released.

In the case of a collector who was accused of retaining \$10.00, money which he had collected for his employer, the amount was refunded and the accused released on suspended sentence.

A bride of 2 months had her husband up in camera for non-support. The case was not finished at 1 o'clock and will be continued this afternoon.

ADVERTISE IN THE ADVOCATE

OBITUARY

MRS. CHAS. ROGERS.

A highly respected lady in the person of Mrs. Chas. Rogers passed away at her home, Greenspond, on Tuesday last, aged 83 years. She was the widow of the late Chas. Rogers and is survived by two sons, Joseph, chief steward of the Neptune, and Fred engaged in the rigging business in London, and also two grandsons, Fred who served with Ours during 4 years of the war and is now with the Marconi Co. in Montreal, and Charles at home, to whom sympathy is extended.

JAMES GOFF.

A message received in town this forenoon conveyed the sad news that an old landmark in the citizenship of Carbonear had passed away at an early hour this a.m. in the person of Mr. James Goff. The deceased was a tailor by trade, and was actively engaged up to a few weeks ago in assisting in carrying on an extensive business, which he and his son had managed with more than an average share of success. For a number of years he had been hampered somewhat with failing sight, but realizing that fullness of years brings with it physical impairment, Mr. Goff approached the eventide of an active industrious and well spent life, with the consciousness that he had been blessed with a fullness of years, a devoted wife and family and a host of sincere friends. Most of his contemporaries have long since passed to the Better Land, and there are but very few living in Carbonear to-day who can recall the earlier manhood of this octogenarian. The subject of this brief obituary was nearly eighty years old at the time of his demise. One of the outstanding features in the character of the deceased was his remarkable memory and his general knowledge of the trade and commerce of the Colony. He took a particularly keen interest in marine matters, and as we remember him in our earlier days in the old home town, if we wanted to know anything concerning happenings at sea, he was always ready to give the desired information. Mr. Goff leaves to mourn a widow, three sons and three daughters. Edward who carried on business with his father at Carbonear, John who conducts a tailoring establishment at Sydney, C.B. and who reached home yesterday, and James an operator with the Western Union Telegraph Co. at Heart's Content. Of the daughters, two entered the religious life, Sister M. Alequo, Presentation Convent, Cathedral Sq., this city, Sister DeSales, Presentation Convent, Hr. Grace, and Miss Mary J. Goff, who resides with her parents at home. To the relatives of the deceased, the writer, whose earliest days found many happy associations around the Goffs, tenders sincere sympathy in their bereavement.

PERSONAL

On June 30th, the wedding of Miss Irene Hutchings, daughter of Inspector General and Mrs. Hutchings, and Mr. Potter of Montreal, will take place. Mr. Potter will arrive by the next Rosalind.

Mr. Jno. Kennedy, son of Mr. E. Kennedy, contractor, who is studying at St. Francis Xavier's University, Antigonish, U.S., arrived here by the express Saturday to spend the summer vacation with his parents.

YOUNG LAD BREAKS LEG

Last night, during the course of a football match between the parishes of St. Thomas's and the Cathedral, an accident occurred to one of the players on St. Thomas's line-up. The game had progressed to within two minutes of full time, with the score two to one in favor of St. Thomas's, when Jack Newhook, in tackling an opponent, unaccountably broke his right leg below the knee. While the Rev. E. Fletcher, who refereed the game, and A. Curlew, of the C.L.B. Ambulance Corps, rendered first aid, a telephone message was sent to the ambulance department, and the injured lad removed to the hospital. The break, we understand, is merely a simple fracture, and it is hoped that he will be "up and about" again soon.

G. W. V. A.

The Great War Veterans' Association will hold their adjourned meeting at 8.45 tonight in the C.C.C. Hall, to further discuss the Government's allowances grant. Every member in the city is asked to attend, and it is more than likely that a number of outport members will also be present.

AND YET THEY COME

Mr. Donald Nicholson, the well known Commission man and Sales Agent has signified his intention of coming forward for Municipal honours in the pending election. Mr. Nicholson has resided here many years, is a patriotic citizen and would make a good Councillor, he having had a good deal of experience in civic affairs at Glasgow, Scotland.

A DANGEROUS PRACTICE

The practice of running horses and motor trucks out of archways onto Water Street is a highly dangerous one and should be stopped. In the roar of the traffic on the street people do not hear teams or trucks as they come up these alleys and there is great danger to passersby. Yesterday two men narrowly escaped being hit by the shafts of an express driven rapidly out of an uptown archway.
